Aggiornamento android 10 huawei mate 20 lite

Huawei has released the EMUI 10 beta update for the Huawei Mate 20 series smartphone in China. Today, the company expanded its EMUI 10 beta program in Europe. Chinese telecommunications technology began recruiting Huawei Mate 20 Lite and Mate 20 X EMUI 10 (Android 10). Check here to download and install emui 10 (Android 10) beta updates on Huawei Mate 20 Lite. The early stages of this beta recruitment are limited to 400 beta tests. The user's participant size will be increased in the future. To remind you, the Huawei Mate 20 Lite is expected to have a stable Android 10 update in the second quarter of 2020. Once the beta program for the device is up and about, one can expect the update earlier than scheduled. To make yourself eligible for the EMUI 10 beta program, make sure that the Mate 20 Lite is the latest version i.e. EMUI 9.1.0.245. You can manually test the version from the Settings path > System > System Update. You can sign up for the Huawei Mate 20 Lite EMUI 10 beta recruitment on Huawei's official Beta testing app and follow the same instructions in the app. To make things simple for you, here we have a step-by-step guide to sign up for mate 20 Lite's Android 10 beta program. Also read: How to download and install EMUI 10 Update on any Huawei phone and Honor [Beta] Android 10-based EMUI 10 ROM brings some new features and changes in the user interface including dark mode, magazine-Style UI layout, Morandi UI color system, and more. Check out the full list of EMUI 10. How features to download and install the EMUI 10 / Android 10 beta update on Huawei Mate 20 Lite Spill the APK file of the Huawei Beta test app on your device. Navigate to an APK file and install it on your device. Open the Huawei beta app. Agree to the necessary terms and conditions. Sign in with your Huawei Id. Join the beta program by directing to the individual from the bottom tabs. Now you need to opt in to the project & available projects. Here you will see the EMUI 10.0 beta campaign. Simply click Subscribe and you're done! Once selected, Huawei will start pushing the Android 10 update through OTA. Enjoy! If you're one of the Huawei Mate 20 Lite users who have installed the Android 10 beta update, then don't forget to share your experience in the comments below. New updated sources are being added at the bottom of this story..... The original story (published on January 28, 2020) follows: Huawei launched the Mate 20 Lite in 2018 with some pretty good configurations. For example, the Kirin 710, 4/6 GB of RAM, a 3,750 mAh battery, a 6.3-inch screen, a dual rear camera with a 20 MP main shooter. Huawei Mate 20 Lite Besides, it comes with Android 8.1 Oreo out of the box and is updated to Android 9 Pie then, users are eagerly waiting for the latest Android 10 update. And as a sigh of relief, Huawei began recruiting EMUI 10 (Android 10) beta for Mate 20 Lite users in Europe in October 2019. Finally, the EMUI 10 stable update has been achieved for november 2019. However, global users have been waiting to get their hands on the latest EMUI 10 based on Android 10 and it seems the wait will finally be over. As in a recent development, in an official Twitter post, when one of the Huawei Mate 20 Lite users asked about the EMUI 10 (Android 10) update for the device, Huawei officially replied that the update will begin its global deployment starting next month, i.e. February 2020. Check out the tweet below: Hi Sabelo, the EMUI10 update for the Huawei Mate 20 Lite will begin its global launch next month. Stay tuned! (Source) Huawei Mate 20 Lite EMUI 10 update to February globally But what is more interesting is that some users have reported that they have received the EMUI 10 update (Android 10). You can check the tweet below from one of the users in Turkey where the update came with the V10.0.0.170 version number. Source Other regions have yet to confirm the arrival of this EMUI 10 (Android 10) update for the device. During this time, we can only wait and see for next month when the update is expected to reach all units globally. We will keep you in the loop until we have more information on this issue. In the meantime, you can check out our dedicated Huawei section to read similar stories around smartphones and Huawei and Honor devices.
